The remuneration of Non-Executive Directors is structured separately from that of Executive Directors and Executives.

Non-Executive Directors:

7.3 Remuneration for Executive Directors, Chief Executive Officer and Executives

The Committee makes annual recommendations to the Board on the remuneration of Executive Directors, the Chief Executive Officer and the Executive team – the latter based on the recommendations of the Chief Executive Officer. The Committee’s review considers individual performance, comparative remuneration in the market and where appropriate, external advice.

Recommendations relate to contractual terms, annual remuneration, any incentive scheme participation, equity-based remuneration, superannuation arrangements and other employee provisions.

Annual individual performance is measured against criteria agreed each year with each Executive Director and Executive and is predominately based on operational outcomes which the Board would expect to translate into Company profits and shareholder value. Bonuses and incentives are usually linked to predetermined performance criteria.

Where a performance-based component forms part of an Executive Director’s or Executive’s remuneration package it may consist of cash and options for outcomes-based events. With respect to the cash component, the KPIs are set annually with a certain level of consultation. The measures are specifically tailored to the areas each Executive Director and Executive is involved in and has a level of control over and are mainly related to production targets that will influence profit and revenue.

Performance in relation to the KPIs is assessed annually with bonuses being awarded depending on the level of achievement against each KPI. Following the assessment, the KPIs are reviewed by the Committee in light of desired and actual outcomes and their efficiency assessed in relation to the Company's goals and shareholder returns, before the KPIs are set for the following year.

The Committee works with the Chief Executive Officer to determine the appropriate level and structure of remuneration of the Executive team based on the guiding principle that Executive Director and Executive remuneration is to be set at levels and structured to attract, motivate, reward and retain good performers to drive the business effectively.

7.4 Employee incentive plans and equity-based remuneration

For any incentive schemes or equity-based plans which are adopted, the Committee is responsible for:

- (a) reviewing and making recommendations to the Board with respect to their terms (including eligibility criteria and any performance hurdles for equity-based plans). In making those recommendations the Committee will have regard to the Remuneration Policy and to the total cost of each plan;
- (b) reviewing and making recommendations to the Board, within the parameters of the plan, on any amendments to the terms of existing plans;

- (e) considering whether shareholder approval is required for the schemes or plans and for any changes to them and making recommendations to the Board thereon; and
- (f) ensuring that payments and awards of equity are made in accordance with their terms and any shareholder approval obtained.

In particular, the Committee will:

- (g) recommend to the Board for approval (within the scope approved by shareholders if relevant) the rules of all incentive plans including the delegation of powers, as appropriate, to management to operate those plans;
